

Cash Register Reporting Obligation (KassenSichV) 2025

What is it?

Businesses must register their electronic recording systems with the tax office under KassenSichV to improve transparency and prevent fraud. This applies to cash registers, EU taximeters, and odometers.

Who is affected?

The reporting obligation applies to all businesses using electronic recording systems, including cash registers, EU taximeters, and odometers. All electronic recording systems owned by a business have to be reported, regardless of whether they are in active use.

Deadlines 2025

Systems acquired before July 1, 2025:

Report by **July 31, 2025.**

Decommissioned/Deactivated systems after July 1, 2025:

Report within **one month** after decommissioning

Systems acquired on or after July 1, 2025:

Report within **one month** of acquisition.

System changes on or after July 1, 2025:

Report within **one month** of change.

Information required for reporting

- **Electronic recording system details:** Type, model, serial number, software used
- **TSS details:** Serial number, certificate ID, type
- **Operational data:** Purchase date, commissioning date of ERS and TSS, location
- **Changes:** Decommissioning, replacement, changes that affect the above data

How to report

- Use the fiskaly SIGN DE x Submission API to automate compliance and minimize manual work.
- Register electronically via the ELSTER Portal and fill in the data manually or via XML upload
- A tax advisor can handle the reporting on your behalf.

fiskaly.
Submission API
